Queries raised by the interested bidders for the tender

1. For IP phone, is UK plug necessary? Since its IP it would most probably be powered via PoE, and since we import from US, buying UK plug adds costs So would like to know if it's necessary to get UK plugs?

Ans: UK plug is necessary as not all our departments are currently using PoE hence we need UK plug power adapters.

2. Could you give specific detail of this procedure. Do we need to submit the bid online and at same time attend to the bid opening? Or we just need to submit bid online?

Ans: The bids must be uploaded to the portal prior to the deadline and the bids will be opened in a session in the presence of representatives as per ITB Clause 2.15.

3. And by the given specifications of the two items, is it approvable if we submit bid as only one item since the other, we don't have the stock?

Ans: Yes. Items will be evaluated and awarded separately.

4. Since the T42-S is an old model and the manufacturer has stopped manufacturing this model, can we suggest a later model? There's a very limited stock of the old model anywhere in the world.

Ans: We can accept a later model as long as it has all the same features of a T42S and must also be compatible with 3CX.

5. Is it possible for us to give an alternative brand which meets the mentioned model's specification?

Ans: We can accept an alternative model as long as it has all the same features of a T42S and must also be compatible with 3CX.

6. Do we have to submit for both items or we have to submit for both?

Ans: Refer to Question 3.

7. In the requirement it says UK Plug power adapter. Can you accept US Plug Power Adapter?
Ans: No. we can only accept UK plugs as all our workstation power sockets are UK based.
